

Central Ohio Business Advisory Council

Discussion Guide

MARCY RAYMOND NOV 28, 2018 09:19AM

From the introductions: What are some of your primary interests in our work together as a Business Advisory Council?

Big Walnut

Growing in student population, but do not have a robust business presence in area.

Delaware

How do we connect all of the growth occurring?

Groveport Madison

Looking forward to connecting the five pathways in their school to work based learning opportunities.

Bexley

Cooperating with business partners is a priority. Expanding view for middle skill opportunities. Internships in businesses, opportunities for teachers to do externships.

Tolls Career Center

Interested in expanding and hearing about other industries to build upon.

Eastland Fairfield

Understand the workforce dilemma and are focused on expanding the understanding of business and teachers from the local districts to understand what we do and how we can

serve the needs for each. Engagement opportunities that are reciprocating between the career center and with partner business.

Olentangy

Expanding the community engagement and exploring ways to exchange thoughts and needs between stakeholders to assure that students are prepared for work. Capstones and internships are a priority for our STEM Academy. What are the skills that go beyond the classroom experiences.

Gahanna Jefferson

Trying to build relationships and align curriculum assessment and work skills. Partnering with Junior Achievement and middle school development.

Upper Arlington

Strategic planning

South-Western

Credentialling

Hilliard

Joining forces between our business advisory to a regional approach. Our partners are from all over and we are looking to strengthen our overall performance in training our future workforce.

Columbus

Partnering with Columbus State has been advantageous. We are looking at improving the Skilled Trade apprenticeship program. Trade show is open for any adult, student, teacher.

January 31 from 5 - 7 at Fort Hayes in the Construction Arts Building.

Construction Trades Career Fair

When you look around Columbus, how much construction do you see? The Columbus market is booming and there are many jobs available within the construction industry / Columbus building trades. Come to the Construction Trades Career Fair where you can learn more about the career opportunities readily available within the Columbus Building Trades.

EVENTBRITE

produce partnership?

Marysville

Looking to expand the learning opportunities for based upon interest and in-demand economic needs. STEM is approaching 50% of students participating in internships... Working on moving the bar to assess and give feedback to kids regarding their work readiness.

Worthington

How can we improve the career exploration in the younger grades so that we can assist students in earlier exposures

Columbus State Community College

Is there a case for a regional workforce perspective? How do we as a region assure that all families experience positive economic mobility?

Whitehall

Tremendous commercial growth has provided the opportunity to align our instruction toward workforce needs. How can we learn from the businesses in our community? How can we parlay that learning for success for our students? How can we expand the knowledge and skills of our workforce?

Licking Heights

College and career pathway implementation in alignment with the launch of their new building.

Dublin

We have a very robust BAC that focuses on the career pathways for non-degree focused participation. Have 90% enter college but only about 60% complete - this is a disconnect and we want to assure that the students have an understanding of work so that they can make good choices.

Grandview

Capstone class focus - opportunity for students to seamlessly connect their academic experiences to workforce experiences. Interested in comparing notes with other districts doing similar work.

How to take advantage of our resources across the region. We shouldn't reinvent the wheel. How can we make it easy to

Hamilton Local

Not interested in a talking group. I want to meet directly with business and industry to build models that are right for our community. Frustrated in that we are invested, but limited in the variety of work opportunities for our students. How can we expand the numbers to approach additional industry in a more personalized way?

Reynoldsburg

Academy structures according to skills and interests to bring opportunities into the schools and reach into the middle and elementary schools so that informed choices can be made.

North Union

Pathway implementation is improving and are putting the career pathways at the front of the curriculum. Apprenticeship program is in place. As we are building industry credentials, we need help in building the internships. We insist that each graduate has at least one pathway.

What data/ info/ speakers/ perspectives would be helpful to you at future meetings?

Learning from other high performing districts regarding integration of work-based learning.

We are interested in having more business representation in the meetings.

How many districts offer which credentialing programs?

Need to see the landscape of Central Ohio

Employment data

What are the employers' needs and how many unfilled positions exist in each?

Want to see models that are currently working in other schools.

I would like to meet with employers to talk about workforce development and alignment of curriculum, instruction and assessment in our schools. Want to hear directly from them what employers need.

Connecting with different sized businesses to understand what they are looking for in employers.

Hearing directly from the business leaders of the in-demand careers so we know what they value and want in future employees.

Internship opportunities that work

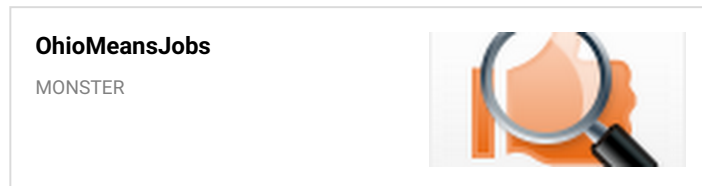

Apprenticeship opportunities

Ways to get students greater exposure to different careers that may or may not need a college degree

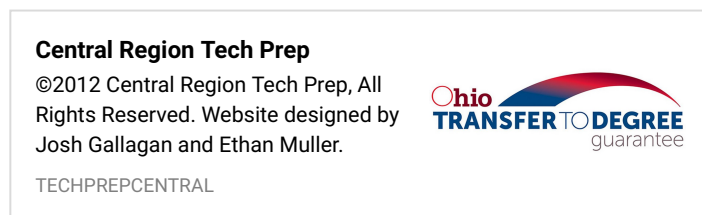

How to start a local BAC specific to a district's college and career pathways based upon community/Central Ohio needs

How to create internships and overcome age barriers for 16 - 17 year olds working in industry.

Common applications for internships through Ohio Means Jobs where businesses can post opportunities.

Districts need to better understand CTE process - ODE has team that can/will educate districts.

Actual business people speaking about their employment issues now and in the future (various kinds).

We need to hear from them and talk with the true company leaders who make decisions about partnerships.

Shared digital folder where districts can drop the resources that they already have/use

Centers for students and K-12 staff can work together for alignment to career pathways

I would like to hear from high performing district who have been successful in developing parent to consider post-secondary options other than 4-year degree programs.

What issues related to the BAC work are you currently working on?

Developing internships through real connections between schools and businesses.

We need a WBL "Backbone" organization for kids. Could be "virtual" for job shadowing...

NEPRIS

This is a virtual service to set up career exploration opportunities via distance (SKYPE). They can even adjust the experience to the classroom if given enough information!

Session Collections
Session Collections - Sets of session templates based on subject area and grade level
NEPRIS

We need a closer connection between local business and the students/school system.

Transportation to opportunities for WBL

First time apprenticeship work

Pulling several different groups together that are working on this topic

Developing relationships with our city's economic development office

Create relationships with local businesses and trade organizations

5-12 workforce development strategies

Getting the right people at the table to discuss and plan

Expanding opportunities for students based upon their interests

CTE pathways in traditional high schools with career advisory committees for those pathways.

Adding industry credentials to pathways.

Workforce placement

Transportation

Push to middle school and elementary schools for opportunities

How to get started...

Career Pathways and credential programs

Internship/School and Business Partnership

Speakers Bureau

Connecting with businesses and agencies to develop internships for students

What initiatives are currently occurring in your setting that we can build upon and share at future meetings?

Eastland/Fairfield has several model programs to share

MS Career Cafe
 MS Summer Camp
 Elementary Career Tech Saturday
 Elementary Career Fairs
 Biz Partner visits to campus
 Job positing on website
 Alumni engagement
 attend local and state chambers including workforce and ED committee meetings
 Host Economic Meetings

I'm happy to share CCRE/i3 work alignment

Working toward career ready students with ample background and readiness for the field. We can share some student stories.

Delaware Chamber of Commerce workforce development committee

Partnership with Otterbein and Big Walnut on problem based learning and careers

Buckeye Valley Career Program as a part of Senior English

Career Cases 5 - 8

Workforce development with our city, Junior Achievement

Olentangy - Portrait of a graduate - what our stakeholders would like our students to be as adults.

Capstone Experiences - mentorships and internships

North Union - creating CTE pathways in traditional high school

North Union - Process for getting non-CTE staff and parents on board with supporting career pathways

We need a funnel to our opportunities for students in the workforce environment. Imagine job positing complete with prerequisite requirements so that all of our students have advantage.

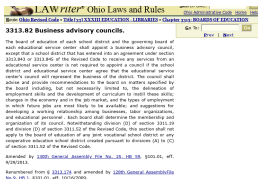

Articulating and communicating the message about pathways

Helpful links from today's meeting

Ohio Revised Code 3313.83

**Lawriter - ORC - 3313.82
Business advisory councils.**

The board of education of each school district and the governing board of each educational service center shall appoint a business advisory council, except that a school district that has entered into an agreement under section 3313.843 or 3313.845 of the Revised Code to receive any services from an educational service center is not required to appoint a council if the school district and educational service center agree that the educational service center's council will represent the business of the district.

OHIO

SuccessBound - Home

Many students are unaware of the different career-focused opportunities available to them. To address these knowledge gaps, Ohio has launched SuccessBound. SuccessBound is an educational approach and communication strategy that bring together Ohio's strong business and education partnerships to engage and inspire students about career opportunities.

OHIO

Success Network - ESC of Central Ohio

Employing Technology and Digital Learning to Enhance College/Career Readiness The Ohio State University reports on the importance of IT in classrooms and the outlines the offering of a technology-focused pathway called EnvisionIT. Complete with an evidence-based curriculum and ESSA alignment, the program is a good example of helping students realize their potential.
